#### NO GUARANTEE OF EMPLOYMENT & EARNINGS:

The school makes no guarantees on any employment opportunities or earning potentials.

#### JOB DEMAND:

##### Job Demand – Results for Virginia

There are a number of different websites that are available for the student to research on the job demand, salary expectations, and employment outlook.

Websites include both government websites and commercial resources such as Bureau of Labor and Statistic, Indeed.com, PayScale.com, etc.

Many individuals ask how much they can reasonably make as a license professional (e.g. Esthetician, Master Esthetician). The answer depends on an individual choices such as working full time/part time, as an employee/self-employed, commission/salary, etc.

The school makes no representation of any income resulting in undergoing our training.

The student must research and assess what they believe to be true based on their personal parameters.

Some common ways of researching include:

- Go on Google and type in How much does a X make in [City, VA]
- X = You can use the program name, title of the position, etc.
- Be sure to indicate the City or Region that you will most likely work in. The school discourages students from using the national average, as each region, may be different.

• Go to Google and search governmental databases. There are national, and state databases that monitor

labor statistics and workforce statistics that may be helpful.

- Students may also want to go to salons, shops and spas to do interviews of current license professionals to gather data.

The school encourages the student to research to make an informed decision.

#### LIMITED SCOPE OF BASIC ESTHETICIAN:

Also note that there are 2 levels of esthetics licensure in Virginia, Basic & Master. Basic level is very limited with scope of practice (see law) and the data may not take into account the limited job

opportunities and earning potential imposed by the limited scope of practice. The data should be considered to be an example but not a given. This data should not be relied upon when considering enrolling into the school as there are no guarantees on placement or income. The school does not verify their graduates salary. The school only verifies if the students is working in the field at the time of the employment verification inquiry is made and publishes a placement rate. Salary potential and employment prospects may vary depending on location, experience, education and other factors.

**DISTANCE ED:** Academic achievement earned via distance education may not be accepted for reciprocity or eligible for licensure in other states.

**PHYSICAL DEMANDS:** Estheticians and Esthetic Instructors mainly use their hands for facial manipulations and must stand on their legs and feet throughout their work schedules. The lower body is used at all times as the esthetician must stand and be able to move freely without hindrance, individuals who have problem with their legs or with freely balancing, standing for extended periods of time need to consider their condition before deciding on a career in this field. The upper body is also used most of the time so most individuals having problems with their neck, back, arms, or hands also need to consider their condition before deciding on a career in this field. Estheticians will also be exposed to hazardous chemicals, which are found in lotions, facial cream, make-up, etc. You will utilize electrical apparatus, including dermal lights, capable of producing electrical current to stimulate but not contract muscles of the body and face.

**LICENSING REQUIREMENTS:** Basic & Master Esthetician careers require a licensure to practice. Students must take a written and practical examination, pass and apply for licensure through the Virginia Board.

Licensing Requirements and Employment Information

**Licensure Requirements:** The State of Virginia requires licensure for Basic Esthetics, Master Esthetics and Esthetics Instructor. Upon completion of the program, you must submit application to the State of Virginia to apply to take both the Theory and Practical exams. You must pass these exams in order to receive your license and perform these services in the State of Virginia. The school will assist each student and guide them through the instructions and applications for the State Board Examinations.

**Industry Standards:** Commonly expected responsibilities of an esthetician include but are not limited to the following: performing skin care treatments within the scope of practice.; possessing communication skills, maintaining a clean and professional personal image, as well as a clean and professional salon image; promoting and selling skin care products; working designated shifts as scheduled and informing the employer ahead of time when unable to work scheduled shifts; receiving clients; building a clientele base; and following sanitation guidelines per OSHA and State requirements.

**Oversight Restrictions:** The Board may deny licensure to any applicant with a record of conviction.

### **Earnings:**

If you want more information on this career in Virginia, (according to career one stop) please also click [here](#).

### **Disclaimer:**

The Bureau of Labor & Statistics and the State of Virginia publish data on salary potential and employment prospects. Note that the Virginia data is not broken down by county and therefore may not be reliable for the area you reside in. Also note that there are 2 levels of esthetics licensure in Virginia, Basic & Master. Basic level is very limited with scope of practice (see law) and the data may not take into

account the limited job opportunities and earning potential imposed by the limited scope of practice. The data should be considered to be an example but not a given. This data should not be relied upon when considering enrolling into the school as there are no guarantees on placement or income. The school does not verify their graduates salary or employment prospects and therefore the BLS and Virginia data are the only example the school has access to. The school only verifies if the students is working in the field at the time of the employment verification inquiry is made and publishes a placement rate. Salary potential and employment prospects may vary depending on location, experience, education and other factors.

**Types of Employment examples:** Esthetician, Master Esthetician, Esthetics Instructor
